

Consumers' Choice

Pro-Tint Automotive, Residential and Commercial Window Film 15 Days Warranty Information

The *Pro-Tint* brand is one of the most user friendly films to install.

Our reputation means more to us than any single sale. If you are not completely satisfied with your purchase, our return policy is fast and hassle free.

Simply return the unused portion to us within **15 days**. We will issue you a full refund of your purchase price, prorated for the square footage returned. For example, if you purchase 100 square feet and return 90, we will issue you a 90% refund.

Please include a copy of your invoice and a brief note explaining the problem with film. All returns are processed within 2 business days.

No other warranties are expressed or implied. The application of solar control films will result in additional heat loads being placed on glazing systems. Customers who require a comprehensive warranty which includes thermal glass breakage insurance coverage should contact a professional solar film installer, rather than installing their own films. *Consumer's Choice / Pro-Tint* assumes no liability for glass breakage which may result from the application of solar films.

Please note that any materials in customer's possession for more than 15 days are not returnable for any reason.

All residential and commercial window film restrictions:

1. Double pane window units over 40 square feet in size (each)
2. Triple-pane glass
3. Partial applications

Films NOT recommend for Low-E and tinted windows:

1. Bronze 20
2. Neutral 20 * (all double pane windows).
